

ARTURO CANO RUEDA

Software Engineering - FullStack Web Developer

ABOUT ME

A recent graduate in Software Engineering, I live in Colima, Mexico, I'm 22 years old, and I've been learning to program for 5 years and I love it. I consider myself very competent in fullstack web development with JavaScript and I'm really looking forward to getting my first job.

Portfolio canoportfolio.netlify.app

I enjoy creating functional web applications that provide benefits, meet needs, automate or facilitate a task. I can create dynamic and beautiful web interfaces with React and Tailwind, as well as backend programs with Nodejs. I am currently interested in real-time applications with websockets

SKILLS

JavaScript - Proficient

Nodejs - Proficient

HTML - Proficient

Nextjs - Intermediate

CSS - Proficient

React - Proficient

Inglés - B1

PROJECTS

MemoRivals

WebApp where you can create decks of flipcards to help you memorize anything (language vocabulary, questions, formulas), then you can challenge a friend to an online memory game using your deck.

I used React, Bulma, NodeJS, SocketIO

BrightBets

WebApp where you can bet fictitious coins on four casino-type mini-games, such as slots-machine, horse racing, etc. Some minigames are online multiplayer.

I used Ruby on Rails, Postgresql
